

# Data Description

This project is [Welfare and Inequality Analysis] which is conducted for the final project of Ironhack Coding School as the Data Analytics program.

	Description
Data Name	Income components, disposable, market and primary income
Data Definition	To benchmark and monitor economic inequality across countries, the OECD relies on two dedicated statistical databases: the OECD Income Distribution Database (IDD), which offers data on levels and trends in income inequality and poverty, and the OECD Wealth Distribution Databases (WDD).
Business Glossary	This project studies intergenerational transfers such as tax and social security in the field of welfare and inequality for Euro-currency using countries with the OECD distribution data. It intends to explain the behavior of working age generation of 18-65 and old generation of above 65.
Data Dictionary	API OECD_ROOT_URL = "http://stats.oecd.org/SDMX-JSON/data"
Domain	Economics and Statistics
